Bengaluru, Karnataka, India

Experience

Quantumberg Technologies PVT LTD

1 year

Junior Software Engineer

February 2024 - Present (6 months)

Bengaluru, Karnataka, India

currently I am working as a Full Stack Developer, I contribute to the development and maintenance of web applications. My responsibilities include:

Frontend Development:

Designing and implementing user interfaces using Vue.js, ensuring responsiveness and cross-browser compatibility.

Collaborating with UX/UI designers to translate designs into functional front-end code.

Integrating third-party APIs and libraries to enhance application functionality.

Backend Development:

Developing and maintaining server-side logic with ASP.NET, ensuring robust and scalable backend solutions.

Creating and managing RESTful APIs for seamless communication between the frontend and backend.

Implementing database schemas and optimizing queries to enhance performance.

Manual Testing:

Creating detailed test plans and test cases based on application requirements and user stories.

Conducting manual testing on developed features to ensure they meet specified requirements and functionality.

Performing regression testing to ensure new code changes do not adversely affect existing functionalities.

Full stack Developer - Intern

August 2023 - January 2024 (6 months)

Bengaluru, Karnataka, India

Developed Web Applications: Assisted in developing and maintaining web applications using Vue.js for the frontend and ASP.NET for the backend, gaining hands-on experience in full stack development.

Collaborated with Team: Worked closely with senior developers, product managers, and designers to gather requirements, define project scope, and implement features that aligned with business goals.

Frontend Development: Implemented responsive and user-friendly interfaces using HTML, CSS, Bootstrap and JavaScript, ensuring compatibility across different browsers and devices.

Backend Development: Contributed to building and maintaining RESTful APIs using ASP.NET, handling data storage, retrieval, and processing.

Database Management: Worked with Microsoft SQL Server databases to design schemas, write queries, and manage data effectively.

Code Reviews and Debugging: Participated in code reviews, debugging sessions, and performance optimization, improving the overall quality and efficiency of the codebase.

Agile Methodologies: Gained experience working in an Agile environment, attending daily stand-ups, sprint planning meetings, and retrospectives.

Version Control: Utilized Git for version control, collaborating with team members on feature branches and managing code merges.

Project Documentation: Documented project requirements, technical specifications, and development processes to ensure clear communication and knowledge sharing within the team.

Education

Bangalore University

Master of Computer Applications - MCA, Computer Science

Davangere University, Davangere

Bachelor of science , Computer Science · (June 2018 - September 2021)

Preuniversity

PUC, Computer Science
